Where does the money go?

Madrona Service Project 2020

Student Activism and Leadership Team (SALT)

Each year, our SALT chooses a service project for our Madrona community. This year, the team has chosen a special project. Our custodian, Serg Ohiri, comes from a village in Nigeria with a huge problem: widespread pollution and garbage. They have no way to manage this increasing problem. Money collected for the service project this year will go to providing instruction and facilities for people in Serg's village. There will be places to compost

and to separate garbage to improve the quality of life in the village. The health of the population is severely affected by the pollution, and our project will help Serg begin the process of restoring health to the community. We are so excited to be able to help Serg with this important and necessary project for his village in Nigeria.
